Section 1 – Introduction

In accordance with Clause 10 of ‘Water resources planning guideline supplementary guidance – New Appointments and Variations (NAV’s)’, see below (tables 2.1-2.15) the details of all AWIN’s NAV Areas licenced during the 2025/2026 FY reporting period (up to 31st March 2026). These exclude the 3 NAV Areas in our WRMP – which are NAV001, NAV002, and NAV005. We have updated our reference naming system from NAV to AWIN, as a result, the first 36 AWIN sites have been updated accordingly to fit the ‘AWIN’ reference. The tables are separated for each Supplying Water Company.
